SUMMARY

I am an IT and Management professional with practical experience in retail POS systems, administrative panels, and business operations. I specialize in using AI for problem-solving and am proficient in MS Office and graphic design. Currently pursuing my BS degree, I am looking for a challenging role in the IT, banking, or corporate sectors where I can apply my technical and administrative skills.

EXPERIENCE

Management & System Administrator | [Arman Mart DHA Peshawar, Pakistan]

Managed day-to-day operations and inventory using IPOS software to ensure accurate sales tracking and reporting.

Maintained the Admin Panel to update product listings, monitor staff performance, and manage business data.

Streamlined mart management processes, resulting in improved customer service and efficient stock handling.

Utilized graphic design skills to create professional business banners for promotional events.
